Thursday 4th May at 7.30pm

Professor John Lennox

will talk on the subject

God and Stephen Hawking

*Whose Design is it Anyway?*

Lecture Theatre A, Building 46 (Physics A),  
University of Southampton, SO17 1BJ

Professor Lennox will respond to Hawking's much-publicised claim that the universe invented itself. He says "It is a grandiose claim to have banished God. With such a lot at stake we surely need to ask Hawking to produce evidence to establish his claim. Do his arguments really stand up to close scrutiny? I think we have a right to know."

Lennox will guide us through the key points in Hawking's argument - with clear explanations of the latest scientific and philosophical methods and theories - and demonstrate that, far from disproving a Creator God, they make his existence seem all the more probable.

John Lennox MA PhD DPhil DSc is Professor of Mathematics at the University of Oxford and Fellow in Mathematics and the Philosophy of Science at Green Templeton College. He has debated Richard Dawkins and Christopher Hitchens and lectured in many universities around the world.

Following the talk there will be an opportunity for questions and discussion. Admission to the talk is free. Books will be on sale at significant discounts.

This is an event not to be missed.
